

Dakota Wear

2019

The Baschine

The main feature of the Dakota Wear Line, is the "baschina" that in sartorial slang is one special cutting flap that comes down from the waist up to the hips.

The Dakota Wear baschine, unique in the world, are made of denim fabric.

Patented, tested and designed in every detail by us.

From the choice of fabric, to the quality testing, the packaging, the processing and finally to the wash, each step of the whole process helps make them comfortable and innovative, giving the whole garment a touch of originality.

Each Dakota Wear baschina has its own unique detail.

The Marlene model for example has the back pockets cut in the shape of V. The Bette instead has a geometric cut. While Shirley has one very original color with sea water nuances.

Each process contributes to making them comfortable and innovative by giving the whole garment that touch of originality.

The Dakota Wear Baschines are recognizable each for a special feature:

the chasm on the Marlene model, the particular seawater shade on the Shirley model or the geometric cut of the Bette model.

The fine synthetic leather we use for our labels it is 100% polyurethane and free of harmful substances as attested by the certificate. It is washable up to 60 degrees.

We care environment to this reason Act responsibly choosing sustainable performance.

Thus, even in denim washing we are concerned with achieving optimal and quality results by choosing eco-friendly solutions.

The collection

dedicated to flounces is inspired by summer, a model that is worn with pleasure, comfortable and versatile. Available in three variants.

The 'Waves' model made with the Hedy basque. Five pockets, exposed buttons, ruined effect. Clear wash.

100% Cotton

The 'Blue' model made with the Doris basque. High waist, five pockets of which the back ones have a V cut. Four bronze buttons are hidden by a stitched skate.

100% COTTON

The Marlene chopper of the 'Mia' model is characterized by a very inclined diagonal. The final effect appears well closed and compact. The cut has been designed to enhance the waist, bandage the pelvis and enhance the curves.

Five total pockets of which the rear ones have a V-section, four barrel-colored silver rifle buttons. High Life.

Silk is a very delicate fabric, so much so that during sewing you have to be very careful not to risk it ruining irretrievably. It also has a different weight from denim which on the contrary is a very durable fabric. But Dakota Wear is just that, the interaction of two opposites that combine generating a harmonious bond.

#TulleCollection. The peculiarity of this collection in addition to the winning combination of tulle with denim fabric, is that the skirt becomes a passe-partout. Completely transparent, she is sent with her strapless dress in tone with the color of the tulle that you can change depending on the look you decide to get.

You can decide to dare by matching a pair of biker leggings.

The model comes in four color variants. Pink, white, celestial and black.

The most popular models:
'Nuvola'

'BETTE'

The Bette model comes in two fabric, comics and flamingo variants. Both 100% cotton. The triangles save split and the laces can vary in color. Each garment is handmade and is unique for this.

'AKEMI'

A mermaid skirt in the malin, mounted on the marlene bean.

Akemi is characterized by two important side slits, one of which is sewn on the finish.

The back of the Dakota Wear garments
is as beautiful as the forehand. This is
our pride and our motto.

We only use quality fabrics. We take care of every detail, such as the choice of a button or the type of yarn.

We always use
break-saving
triangles.

QUALITY CONTROL

All Dakota Wear garments undergo strict inspection and inspection operations after each individual manufacturing operation to ensure that the product has the required quality of excellence before it is released. The audit is in accordance with all compliance standards, or withdrawn from sale otherwise.
